

SNACKEX

2024 is proving to be a groundbreaking year for BagForm International as we continue to deliver industry-leading quality, price and turnaround times within the VFFS sector of the packaging industry.

Our decision to exhibit at SNACKEX this year is driven by our desire to showcase our best-in-class VFFS solutions to snack manufacturers worldwide.

We are proud to manufacture all our products in the United Kingdom, which is a testament to our commitment to industry-leading quality. Our “Made in Britain” membership further underscores our dedication to excellence and innovation.

At BagForm International, we are always looking for ways to improve our products and better serve our customers. Whether through our innovative VFFS back-sealing solution or our new range of tube closers, we are always looking for ways to support our customers through innovation and an ever-expanding product range. Both our back-sealing solution and tube closers will be available to see in person on stand 263.

This year, we are exhibiting with our industry colleagues, Lako, who will also be present on stand 263, showcasing the latest innovations in the flexible packaging industry.

Andy Dewar, our Operations Manager, and Chris Neal, our Marketing Manager, will be on hand throughout the show to answer any of your questions.

We look forward to seeing you at our stand.

Enjoy the show and your time in Stockholm

Sincerely,

Jason Larke
